It operates some of the largest cable networks in Canada, including Pop TV, Bio, Eastlink and CCI, as well as a number of radio stations. Sealord is a wholly owned subsidiary of Cable World. History Sealord was founded in 1986 as a cable distributor. It branched into media in the 1990s, with the purchase of some of the cable networks of Canadian Radio-television and Telecommunications Commission (CRTC)-approved distributors. It later purchased television stations from Great White Broadcasting, Continental Cablevision, and Sullivan Broadcasting. Sealord's capital increases have been common. Between 1995 and 1997, the company's stock rose from \$9.25 to \$13.50. In early 1997, Sealord reported its first quarterly loss in the company's history. The company's shares fell by half between 1998 and 2003, and by 60% between 2003 and 2004. The company was purchased by Cable World, a cable company founded in 1996, on April 1, 2004. At the time of the purchase, Sealord had 800,000 subscribers, operating television and radio stations, including CFTO-DT and TVA. In May 2004, Sealord rebranded its cable networks as "Pop", "Bio", "Eastlink" and "CCI". The following month, Sealord purchased the radio station CFGC-FM, which was relaunched as Magic 89.9 the same year. Sealord's first acquisition of a radio station, CFGC-FM, was "a move to bring an urban radio station" to the Toronto market, according to then-CEO Lewis Winter. The station, which aired from the time of its launch in 1989, was "converted into a hit-music station" under the same ownership as the company's television channels. Television station acquisitions Sealord (owner) purchased: Television stations that were distributed by Canadian Radio-te
